

STEEL HAMELESS COLLARS

Complete with Nickel Plated Fittings
They are Elegant in Appearance
LIGHT, STRONG AND RELIABLE IN SERVICE

The Only Collar on the Market that will Adjust
in Width as Well as Length

The latch at the bottom can be changed to suit near or
off side. Its good qualities have secured its adoption
in the fire departments of many large cities and also
by the U. S. War Department for its artillery horses.

LIFE NETS

The Hunter Life-Saving Net

is superior to any net in the market,
being made of the best Russian bolt
rope, with a solid rope center, act-
ing as a cushion, no metallic sub-
stance whatever. The lightness and
compactness of these nets enable
them to be easily carried on any
hook and ladder truck, measures 30
feet in circumference. None genu-
ine without the maker's name on
tag. Nets also made for Drill
schools such as used in New York,
Boston and St. Louis.

MALCOM HUNTER

Maker of first rope life-saving net.
Orders punctually attended to.

ECONOMY IN VILLAGE FIRE EQUIPMENT

is successfully practised by the purchase of equipment giving the best and longest service; especially is this true in the selection of the hose cart.

In the construction of the Wirt & Knox hose carts proper consideration has been given to design, material, workmanship and finish, insuring maximum length of service, practical operation and attractive appearance.

The Wirt & Knox Mfg. Co.'s line of fire equipment includes Hose Reels, Racks, Carts, Ladder Trucks, Extinguisher Carts; practically everything in hand-drawn fire apparatus.

Our Fire Department Catalog illustrates and describes **TWENTY STYLES OF CARTS**, and will be sent free upon request.

WIRT & KNOX MFG. CO., 16 N. 4th St., PHILADELPHIA, PA.
